Attard Cabinets

Attention Cherie and Bruce

We want to express our thanks to you our appreciation and thanks for the help in designing and the whole implementation in our 7 metre reception counter and 9 metre back cupboards.

As you know we also have a shared reception with Medical Practitioners and the undertaking was made so easy with Bruce suggesting and designing the whole thing for us.

This went so perfect and far less expensive than several other quotes we had.

I am more than pleased to recommend your business for the whole process from product design, materials and installation. On time all the way and ahead of the quoted dates! The extras Bruce installed made life so easy for our reception staff.

THANK YOU!

Yours faithfully,

The Health Care Team
